PROFILE

I'm Bilbin Francis Tom, a recent graduate with a degree in commerce. Although my educational background is in Commerce, I have developed a strong passion for web development and have completed several projects and courses to build my skills in Python, Django, HTML, CSS, and JavaScript

OBJECTIVE

To secure a challenging role as a Python and Django developer, where I can utilize my skills and knowledge to contribute to the growth of the organization while also learning and growing professionally.

PROJECT

Instagram Clone

I developed a Django Instagram clone project, highlighting my expertise in HTML, CSS, Python, and Django.

Here are some key features

User Registration and Authentication
Profile Creation and Editing
Image, Caption Uploading and Editing
Add Comments
Search Functionality
Responsive Design
